# Who is Schoolbox?

*Schoolbox is a world-leading education technology provider for K-12 schools.*

Our mission is to empower educators by providing a powerful digital platform to improve the student learning experience.

To achieve this, we have created a diverse team of people who are passionate about engaging staff, students, and parents in the learning journey.

We believe that diversity of thought, experience, and identity within our team is essential for driving innovation and growth, as it enables us to reflect, understand, and meet the diverse needs of our school communities.

Schoolbox consolidates the digital learning environment by bringing teaching and learning, communication and collaboration, extracurricular management and wellbeing information into one centralized place.

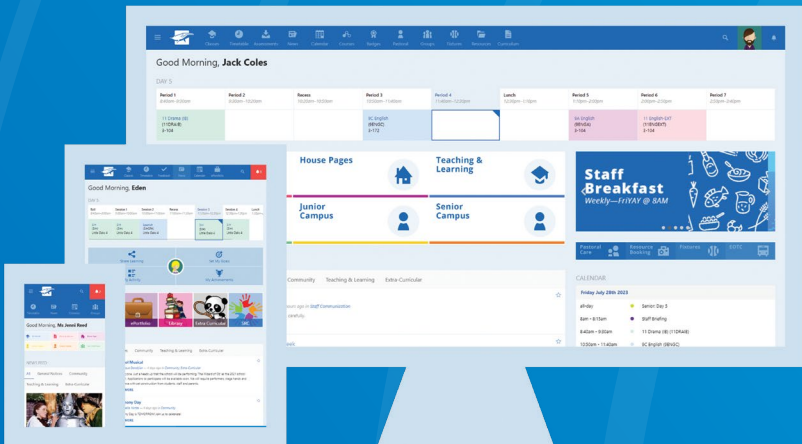

Find out just how Schoolbox has benefited St Andrew's Catholic College.

# Schoolbox Learning

*A single platform to connect, communicate, and collaborate with students, teachers, parents and your broader school community.*

More than just an LMS, Schoolbox Learning is a platform to enable schools to support the development of the whole student; their academic growth, extracurricular involvement and wellbeing.

Schoolbox Learning empowers educators to support student learning with innovative and powerful learning tools.

# Schoolbox Community

*Engage your whole school community with modern collaboration and communication tools.*

With Schoolbox Community, your school can create a central place for your entire school community to collaborate and communicate.

“Schoolbox provides an online environment that is extensively customisable to meet the College branding, extends and enhances the learning opportunities for students and facilitates numerous communications approaches to keep our families informed.”

Brett — Director of ICT

## FEATURES

# Curriculum Planning

Schoolbox's agnostic approach to curriculum mapping ensures you can better understand how your school delivers curriculum, no matter what curricula your school is using.

### Curriculum Mapping

Track and map your curriculum requirements to better understand how your teachers are delivering the curriculum in the classroom.

### Course Builder

Create courses, units, lesson plans and projects to assist your students to navigate their learning, with functionality to save them all for later use and collaborate with other teachers.

### Microcredentials

Enable the recognition of learner achievements using badges, and align them with your curriculum.

## FEATURES

# Assessment & Reporting

Schoolbox provides teachers with the assessment and reporting tools they need to support students in a customized learning experience that meets their different needs and abilities.

## Markbooks & Reporting

Streamline the way you keep track of student progress using class, cohort and rubric markbooks, and use centralised assessment data to support both summative and continuous reporting and feedback.

## Rubric Tools

Give targeted feedback to your students, align with curriculum standards, and track achievement across multiple assessments.

## Insights

Gain a deeper understanding of your learners' academic growth with learning analytics, using assessment data to make informed decisions on each student's learning journey.

# Pastoral Care

## Records

Collect, store, manage and access student wellbeing information securely, and use existing pastoral templates for consistency and simplicity.

## ILPs and IEPs

Staff can use pastoral flags to stay informed of sensitive student information including Individual Learning Plans, medical plans, and strategy sheets.

## Reporting

Build custom pastoral care reports for groups or classes, set default actions for record types and track task completion. Our pastoral system provides greater ability to manage intricate workflows.

## Pastoral Notifications

If a pastoral care record is edited or a comment is added, a notification will be triggered to notify the relevant staff of the change, allowing staff to stay up-to-date.

## Collaboration & Communication

### News

Send timely and targeted messages to students, parents, staff and groups using the audience settings in the News component.

### Calendar

Students, parents, and staff can view their upcoming events, extracurricular activities, due work and classes in one place.

### Groups

Create dedicated groups for extracurricular activities, and add the relevant students and their parents as group members, facilitating transparent communication and skill building beyond the classroom.

### Fixtures

The team Fixtures component can also be used on a group page to allow group members to access details of events, including results.

## FEATURES

# Parent Engagement

Parents play a crucial role in supporting their children's learning, and higher levels of parental engagement are consistently associated with better academic outcomes.

### Parent Dashboard

Allows parents to remain connected to their child's learning journey, with visibility of their child's behaviour and assessment feedback in one place.

### Targeted Communication

Ensure parents only get the messages relevant to them with customizable audience settings in news posts, in-app push notifications and email digests.

### Share Special Moments

Share class activities, evidence of learning, assessment results, badge achievements and photos with parents.

## FEATURES

# Student Engagement

Schoolbox provides schools with the latest innovations to leverage and engage learners across all combinations of remote, hybrid and onsite learning.

## Student Dashboard

Gives students easy access to their calendar, timetable, learning activities and newsfeed all in one place.

## Student Learning

Class pages and personal profile pages which enable students to access learning and teaching content, whilst using rich multimedia tools to capture evidence of learning and effectively share with staff and parents alike.

## Interactive

Facilitate real-time communication between teachers and students through the use of collaborative components such as forums, polls, social streams, surveys and forms.

**With you every  
step of the way**

*Winners of The Educator Service Provider Awards for 3 consecutive years, our Support team is full of remarkable problem solvers who are known for their excellent customer service.*

## **Technical Support**

For all troubleshooting and technical support, log your issue via our global ticketing service to be resolved by a specialised expert as soon as possible, or call our Support team. Our global emergency support line is available 24/7.

## **Feature Requests**

Schoolbox is continuously evolving, and customer feedback remains at the forefront of product development, with most features and updates stemming from feature requests left in our user forums on Schoolbox Help.

# Professional Learning

We understand the importance of equipping your new staff with the necessary skills to maximize their Schoolbox experience. The Schoolbox Professional Services Team is here to guide you through the best practices of Schoolbox features.

## Online Learning Course

Access our school-directed online learning course to progressively build on skills needed in different roles through role-based tailored units.

## Intensive Courses

Ensure your new staff begin their Schoolbox journey with confidence with dedicated sessions, designed to quickly upskill staff in the fundamentals of Schoolbox in a supportive small group environment.

# Implementation and Consulting

*Ensure staff embark on their Schoolbox journey with confidence.*

## Implementation

Our Implementation team will provide you with all of the necessary support required during the initial implementation of the product, including a project plan, a dedicated project manager, stakeholder engagement and an implementation checklist.

## Consulting

Get access to customised consultation services tailored to your school's specific needs with Professional Services. Discuss innovation in the classroom, best education experiences and learning management tools.

## Projects

Professional Services assists in implementing a modern classroom to facilitate a deeper learning experience for your students, with minimal disruption through Student Information System integrations and system switchovers.
